Do you know where you can go if you need to escape a dangerous situation?

There is an emergency lock button inside the main doors at the Jackson Municipal Complex located at N168 W19851 Main Street. The button is on the southwest wall under a clear plastic case and is intended for emergency use only by any person needing to escape imminent danger. When pushed, the outer set of glass doors lock, and the phone can be used to notify police. Questions? Call 262-677-4949.
